

# VOLTAGE DETECTORS ANALOG VOLTAGE DETECTORS

## Analog voltage detector - Medium Voltage

### Optical

Voltage presence is indicated by LED. Self-checking device incorporated by inside piezoigniter.  
It works with no battery.  
Indoor use by insulating pole according rated voltage of the detector.  
End fitting to the pole by Universal type.

### Mod. VT-5/36-U Detector

- Rated voltage: 5 to 36 kV
- Frequency: 50 Hz / 60 Hz
- Supplied in a rigid plastic box to store and transport the voltage detector

Code	Ref.
640113	VT-5/36-U

### Mod. VT-5/66-U Detector

- Rated voltage: 5 to 66 kV
- Frequency: 50 Hz / 60 Hz
- Supplied in a rigid plastic box to store and transport the voltage detector

Code	Ref.
640115	VT-5/66-U
